# LET'S PUT YOUR DRONE IMAGES TO WORK!

## Revolutionizing drone image analysis for utility companies and infrastructure management

**TALAMONE** Group

Hawk System
Artificial Intelligence

## What Is the HAWK System DEMO?

The HAWK System DEMO is an **innovative platform that changes the way** utility companies and infrastructure managers harness drone imagery to optimize operations and decision-making.

With **just a quick and easy company registration**, you'll unlock full access to our advanced analysis tools and can upload unlimited drone images to simplify your infrastructure management process.

**Analyze up to 1 km of medium-voltage network in just 1 minute**, with detailed, **clear** and **actionable** insights to optimize your operations. Whether you're managing electrical networks, railway lines, or large infrastructure projects, HAWK efficiently delivers the information you need.

## Why should you use HAWK System DEMO?

### Optimize operations
By efficiently analyzing your network to ensure reliable performance.

### Proactively identify risks
Such as vegetation overgrowth, structural issues, or other hazards that can affect network reliability.

### Improve decision-making
By providing timely insights from your drone images, helping you address potential issues faster.

### Enhance cost-efficiency
By automating network analysis tasks that usually require manual inspections, reducing labor and operational costs.

# HOW DOES IT WORK?

**Register in seconds**
Complete your company registration in just a few steps. After that, you'll have full access to the DEMO platform, where you can explore all the features of the HAWK System.

**Upload unlimited drone images**
After registering, you can upload unlimited drone images from your network or infrastructure. Our platform is designed to handle large volumes of images, so you can easily monitor vast areas.
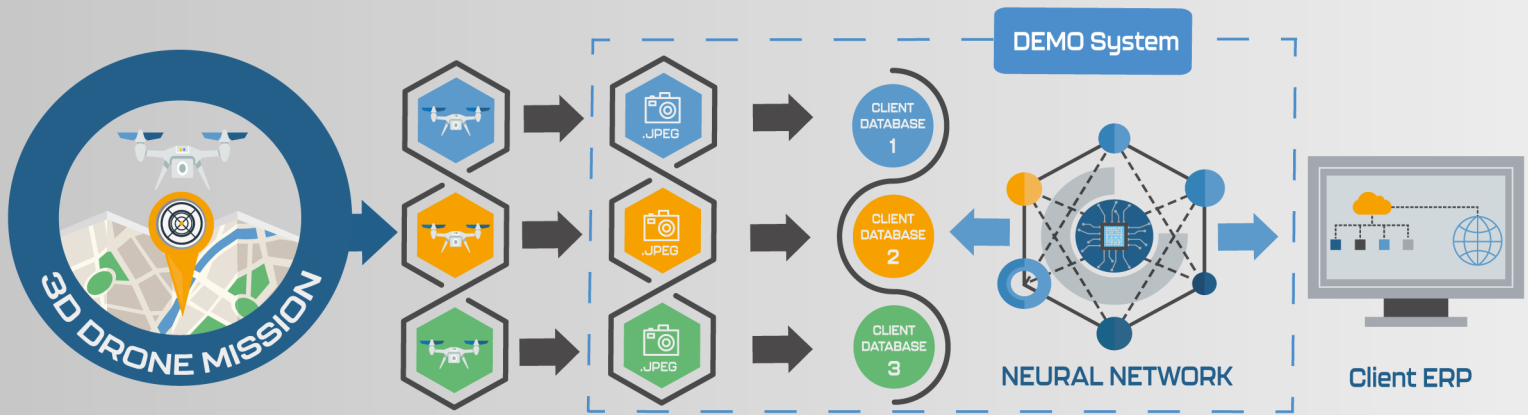

**Experience real-time analysis**
The HAWKsystem instantly analyzes your images and provides actionable insights. It takes just 1 minute to analyze 1 km of medium-voltage network, giving you quick, reliable results.

**Interactive Map and Image Explorer**

| | Label | Confidence |
|---|---|---|
| 5 | Insulator | 95.17% |
| 6 | Insulator | 93.99% |
| 7 | Pole | 90.67% |
| 8 | Insulator | 83.74% |
| 9 | cross arm | 76.03% |

**Unlimited** image upload
Test the system on as many drone images as you want—no limits.

**Instant** access
As soon as you register, you'll be able to use the system immediately.

**Efficient** analysis
Analyze large networks and infrastructures in minutes instead of days.

**Proactive** monitoring
Use the insights from the analysis to prevent outages and improve network reliability.

**Cost-saving**
Avoid expensive equipment failures by detecting issues early.

## Register today to unlock valuable insights from your drone data!
It's quick, easy, and completely free.
Let's put your drone images to work and revolutionize how you manage your network!
